

ENTREPRENEURIAL VENTURES /

Our dedication to integrity is matched only by our entrepreneurial spirit. We don't just consult. We lead, build and invent.

We believe strongly in innovation, entrepreneurship and industry leadership. Not only do we actualize these for our clients and our own company, but we also look for unique and mutually beneficial opportunities to partner with likeminded companies and individuals.

To this end, The Ashcroft Group joins in entrepreneurial ventures with other organizations and individuals on a limited basis. We carefully evaluate each business opportunity to determine if:

- Acquisition risk assessment
- Compliance programs
- Corporate finance
- Corporate monitoring
- Creditor advisory
- Crisis management
- Financial distress or bankruptcy
- Government investigation strategy
- High-stakes litigation
- Independent internal investigations
- Investigations management
- Risk management
- Transaction advisory
